Gemini 2.5 Flash-Lite

On this page

gemini-2.5-flash-lite

Our most cost-efficient multimodal model, offering the fastest performance for high-frequency, lightweight tasks. Gemini 2.5 Flash-Lite is best for high-volume classification, simple data extraction, and extremely low-latency applications where budget and speed are the primary constraints.

◆ Try in Google AI Studio

gemini-2.5-flash-lite

Property	Description	
👤 Model code	gemini-2.5-flash-lite	
📁 Supported data types	Inputs Text, image, video, audio, PDF	Output Text
🕒 Token limits	Input token limit 1,048,576	Output token limit 65,536
🔧 Capabilities	Audio generation Not supported	Batch API Supported
	Caching Supported	Code execution Supported
	File search Supported	Flex inference Supported
	Function calling Supported	Grounding with Google Maps Supported
